

Instruction for completing excel templates for registering patients on board in Health Declaration (MDH) of HNMSW (Hellenic National Maritime Single Window)

- **Number_of_Passenger_Identity_Document** (fill in for passenger's entry): The field is filled in **only** with the **identifications document number** (as it is registered in FAL6) of the passenger and not by his/her name/surname.
- **Number_of_Crew_Identity_Document** (fill in for crew number): The field is filled in **only** with the **identifications document number** (as it is registered in FAL5) of the crew member and not by his/her name/surname. In case the crew member does not have Identification's document number (e.g. Muster Book), he/she will not be registered in the excel file but through the application (tab **Health** → table **medical records** → **Add** and select Crew Member Name from the drop down list which will appear).
- **Embarkation_date (mandatory)**: The accepted format is DD/MM/YYYY (e.g. 01/01/2025).
- **Illness (mandatory)**: Free text field. Special characters (!@#\$%^&*()»'./,) are not allowed.
- **Symptoms_date (mandatory)**: The accepted format is DD/MM/YYYY (e.g. 01/01/2025).
- **Reported_to_port_medical (mandatory)**: Select a value from the dropdown list
- **Medical_State (mandatory)**: Select a value from the dropdown list
- **Case_Disposal**: Select a value from the dropdown list
- **Location_of_evacuation**: The field is filled in with the patient's (**ONLY** LOCODE) disembarkation port.
- **Treatment**: Free text field. Special characters (!@#\$%^&*()»'./,) are not allowed.
- **Comments**: Free text field. Special characters (!@#\$%^&*()»'./,) are not allowed.
